KIN HEATERS COLLECTION

## A Campfire for the 21st Century

The design that started it all. The Allison sets the tone for a modern redo of an outdated standard, and we've always dreamed of a Cinderella moment. Classical lines and proportions are taken to a whole new scale. Innovative, stylish and with plenty of heat, staying warm has never looked this good.

## Snuggle By Choice

Her gettle curves and clean lines may make you the envy of friends but it's her devotion to keeping you warm that's got us hot and bothered. The Bella features the same commitment to innovation and design that help define her siblings, but don't worry, we won't tell the others if she's your favourite.

### They Wouldn't Be Siblings Without A Little Rivalry

The Bella Petite becomes social central for the casual or weekend entertainer. A scaled down interpretation of the Bella, six inches shorter than her big sister, this Kindle packs a whole lotta heat perfectly suited for backyard get-togethers. Trust us, you won't be able to get rid of your comapny.

### Uh-huh, Kindle Can Hookup Your Hook-Up

The Caroline offers a natural gas alternative brilliant in its simplicity. It's streamlined functionality takes shape in a clean silhouette that compliments both the pleated and smooth shades. No one said it would be an easy choice, but rest assured, your decision will keep you warm with the wonder of it.

# Proportion

## A Great Excuse To Leave The Light On

The Lumen is, in simplest terms, a lamp. To pigeonhole it, however, would be to limit its range. Our interpretation makes a bold statement providing soft light that's heavy on atmosphere. We are rethinking the tradition of lighting and how it is used to influence a setting. Casual or black tie, indoors or out, you won't need an excuse to leave this light on. Available as a plug-in or rechargeable Li-Ion battery models with white or multi-color lights. Black Onyx also available by special order.

# Proper Spacing

### SUGGESTED SPACING WHEN MULTIPLE HEATERS ARE USED:

Spacing For: WELL PROTECTED AREAS AND MILD CLIMATIC CONDITIONS

Spacing For: SEMI EXPOSED AREAS WITH AVERAGE WEATHER CONDITIONS

Spacing For: COMPLETELY EXPOSED AREAS WITH SEVERE WEATHER CONDITIONS
